**Rx4NJ is a no-cost, one-stop service.**

Once you're on our Web site or on our toll-free help line, you'll learn about, and get access to, hundreds of prescription drug discount and assistance programs covering thousands of prescription medicines.

Simply answer a few short questions to determine if you're eligible for one or more of the many government and pharmaceutical industry sponsored patient assistance programs – even if you are currently uninsured.

At absolutely no cost, and with total confidentiality, Rx4NJ will help connect you to the program that works best for you.

## Get connected to Rx4NJ.

### It's as easy as 1, 2, 3.

Remember this is a free, confidential service.

**1** Click: [www.rx4nj.org](http://www.rx4nj.org)  
Call: **1-888-Rx FOR NJ**  
(1-888-793-6765)

**2** Answer a few short questions to determine your eligibility – age, income, current insurance and prescriptions to be filled.

**3** Then you'll be shown the programs and discounts for which you qualify. Our professionals can even review all the medications you're taking to make sure they work together.

*Each pharmaceutical company and government program determines the eligibility for its program. Specific guidelines and application processes vary.*

Most people don't know that there are hundreds of drug company and government sponsored programs that make it easier for people to afford their prescription medicines.

## That's why Rx4NJ was created.

## Did you know?

Rx4NJ gives you access to over 250 programs that include over 1,800 different prescription medicines.

In 2003, research-based pharmaceutical companies helped 6.2 million patients fill over 18 million prescriptions worth \$3.3 billion through their patient assistance programs.

It typically takes 14 years and costs pharmaceutical companies \$800 million to develop a new prescription medicine.

**Rx4NJ is a voluntary partnership formed to help people all across New Jersey gain access to free and low-cost prescription medicine programs. The coalition is led by a wide range of patient advocacy and community organizations and New Jersey's pharmaceutical industry:**
