## Program Overview

### Rx4NJ, A Partnership for Prescription Assistance

#### Who We Are

Rx4NJ brings together America's pharmaceutical companies, doctors, patient advocacy organizations and civic groups to help low-income, uninsured patients get free or nearly free brand-name medicines. Our mission is to increase awareness of and enrollment in existing patient assistance programs for those who may be eligible. Rx4NJ offers a single point of access to more than 300 public and private patient assistance programs, including more than 150 programs offered by pharmaceutical companies.

#### What We Offer

##### ***Help for Those in Need***

Many people have difficulty affording health care, including prescription medicines. A number of patient assistance programs provide help to patients who lack prescription drug coverage and earn less than 200% of the federal poverty level (approximately \$19,000 for an individual or \$31,000 for a family of three).\*

More than 27 million people in the United States make less than 200% of the federal poverty level and are uninsured.

##### ***Access to Free or Nearly Free Medicines for Those Who Qualify***

Patients will be directed to the public or private programs most likely to meet their needs. Rx4NJ helps low-income, uninsured patients:

- Enroll in more than 150 company patient assistance programs
- Access more than 1,400 medicines for free or at a low cost
- Learn how to contact government programs for which they may qualify, such as PAAD, Senior Gold, Medicaid, Medicare, or the State Children's Health Insurance Program

##### ***Easy Enrollment***

Finding the right program can be complicated. That's why Rx4NJ is making the process much easier for patients by offering:

- A single toll-free number (**1-888-RXFORNJ**) and website ([www.rx4nj.org](http://www.rx4nj.org)) for access to information about all available programs
- Trained specialists to help identify programs and help fill out forms

---

\* Qualifications vary by programs.
